

From the desk of...

Bruce G. Haffty, MD
Robert Wood Johnson University Hospital Medical Center
Department of Radiation Oncology

Dear Colleague:

Quick question: How much free time do you have?

If you're like most busy physicians, your answer is "none."

During office hours you see patients, supervise staff and manage your practice.

In your "spare" time you read medical journals, scan online resources, attend conferences and network with fellow physicians.

But oncology evolves so fast it's almost impossible to stay ahead of the information avalanche.

Who has time to review all the latest adjuvant therapies, relevant technologies—and the local specialists who best utilize these advances?

That's why I'm sending you our *Guide to Radiation Oncology Services* at Robert Wood Johnson University Hospital.

The *Guide* provides information you can trust from a program that is a partner of the only National Cancer Institute-designated facility in New Jersey. Brief and easy-to-skim, the *Guide* includes...

- **Concise information** on Central New Jersey radiation oncology services
- **Details on 7 radiation advances** that can help your patient
- **Handy *Radiation Oncology at-a-Glance*** reference guide
- **List of selected specialists** and their contact information
- **An inside look at New Jersey's first proton accelerator**

With the *Guide* it's easy to stay organized and informed on radiotherapy and referral options. Page through the *Guide* now and use it for quick daily reference.

Need extra copies of the *Guide*? Like to discuss your patient with me? Want to join our mailing list for ongoing radiotherapy updates? Please give me a call today at 732-253-3939.

Looking forward to supporting the health of your patients—and your practice.

Sincerely yours,

Bruce Haffty, MD

Professor and Chairman, Department of Radiation Oncology, UMDNJ-Robert Wood Johnson Medical School

Associate Director, The Cancer Institute of New Jersey

Chief, Radiation Oncology, Robert Wood Johnson University Hospital
